

# What is BTrackS?

BTrackS is a falls risk assessment tool which can be used to measure the postural sway of older adults. It is ideal for EBPs such as Geri-Fit®, A Matter of Balance, Enhance Fitness, Tai Chi and other Tier III evidence-based programs.

- BTrackS measures the postural sway of an individual
- It's highly accurate and reliable
- Displays results in less than 3 minutes
- It's lightweight, portable, and no power is required
- Ideal for health fairs, home visits, and patient monitoring
- Plugs into a Windows-based tablet or laptop computer

**Price: \$1,595 + \$25 S/H**

Includes the BTrackS Balance Plate and software\*

\* An annual \$19.95 software renewal fee is required

Available exclusively through the Geri-Fit Company
